Journal of Science Education and Technology

Vol. 6, No. 1 **March 1997**

CONTENTS

Announcement 1

The Role of the Internet in the Adoption of Computer Modeling as Legitimate High School Science 3
Bill Barowy and Catalina Laserna

The GLOBE Visualization Project: Using WWW in the Classroom 15
J-F de La Beaujardière, John Cavallo, A. Fritz Hasler, Horace Mitchell, Chris O'Handley, Ron Shiri, and Richard White

An AERA SIG-EST Article
Productive Discussion in Science: Gender Equity through Electronic Discourse 23
Sherry Hsi and Christopher M. Hoadley

Student Epistemological Beliefs and Conceptual Change Activities: How Do Pair Members Affect Each Other? 37
Mark A. Windschitl

Internet Resources for Middle School Science: Golden Opportunity or "Sillicon Snake Oil"? 49
David F. Jackson, Gretchen Bourdeau, Alice Sampson, and Thomas J. Hagen

Making Way for Technology Education 59
Senta A. Raizen

CHEMMAT: Adaptive Multimedia Courseware for Chemistry 71
Sun-Teck Tan and Lian-Kuan Tan

Journal of Science Education and Technology

Vol. 6, No. 2 June 1997

CONTENTS

Announcement 81

What Happened to the Voice of the Author? 83
Judah L. Schwartz

Mastering Difficult Concepts Using Software to Support Learning: A Case Study in Teaching Mandarin Chinese 91
Lynne Bolduc

Sex Differences in the Use of Science and Technology in Children's Cartoons 103
Sheila Brownlow and Staci Durham

Student Scientist Partnerships: Shrewd Maneuvers 111
Robert F. Tinker

Lecturing; Multimedia Classrooms 119
David W. Brooks

Case Studies of Microcomputer and Interactive Video Simulations in Middle School Earth Science Teaching 127
David F. Jackson

Distinctives of High Producers of Minority Science and Engineering Doctoral Starts 143
William F. Brazziel and Marian E. Brazziel

Computer Technology, Science Education, and Students with Learning Disabilities 155
David D. Kumar and Cynthia L. Wilson

Journal of Science Education and Technology

Vol. 6, No. 3 **September 1997**

CONTENTS

Issues in Adopting a Laserdisk-Based Science Curriculum 161
David A. Child, Thomas M. Duffy, Sonny Kirkley, and Lori Hubbard

Part I: Toward a System of Educational Engineering for Traditional Class Elements: A Case Study in an Introductory Physics Course 173
Gay B. Stewart

Part II: A Computationally Based Modeling System for Class Elements Using Formal Observer-Based Experimental Connections 193
Gay B. Stewart and John C. Stewart

EARTHWATCH Expeditions Impact Science Education: Exposing Teachers to Science and Technology in the Field and in the Classroom 213
Rachel A. Nixon

The Trend Towards Materials in Science and Technology Education 231
Aaron S. Blicblau

Education-Industry Collaboration in Europe 241
Derry W. Jones

Journal of Science Education and Technology

Volume 6, Number 4 **December 1997**

CONTENTS

Lateral Thinking and Technology Education 245
Shlomo Waks

Curriculum Reform and Talent Development 257
David E. Drew

The Scientific World View, Information Technology, and Science Education: Closing the Gap Between Knowledge-Generation and Knowledge-Consumption 273
Joshua L. Tosteson

Students' Views of Science and Technology When Entering University 285
Richard Lefevre, Andre Escaut, and Bernard Bouldoires

Optimally Engineering Traditional Introductory Physics Classes 297
Gay B. Stewart, John C. Stewart, Sean Slape, and Jon Osborn

Citizen Scientists: Student Experiences in the GTP Georgia/Russia Exchange Project 315
Susan Dunkerly-Kolb and Jack Hassard

The Conference Metaphor: Genres for Sharing Online Information 323
Geoffrey E. Bock

Addressing Science Teacher's Initial Perceptions of the Classroom Uses of Internet and World Wide Web-Based Resource Materials 329
Randall L. Wiesenmayer and George R. Meadows

Student Achievement in an Educational Technology Course as Enhanced by Cooperative Learning 337
Chi-mei Doris Leung and Choi-man Chung
